

CONFERENCE FAILS, STRIKE CONTINUES

FORT SMITH, Ark., July 17.—Eight hundred coal miners in the Spadra, Ark. field, who struck last week in protest against what they charged was profiteering in miners' supplies, by operators, will remain on strike. It was announced after a conference here by representatives of the United Mine Workers of America and members of the Coal operators' association. The meeting broke up in disagreement. It was stated, when John Wilkinson, president of the mine union of District 21, refused to order the men back to work unless the operators agreed to supply the miners with coal at a price of \$1.00 per ton. This demand the operators refused to meet. Representatives of the operators said after the conference that they would carry the case to the international union.

U. S. Participation In Allied Financial Conference Likely

WASHINGTON, July 17.—Postponement until some time in the near future of the international financial conference probably will permit American representation in official circles here would be practically impossible should the conference be convened Friday, as originally planned. While it was announced recently that the United States would be unofficially represented at the Brussels conference, it has been stated that difficulty was being found in finding any person willing to attend the conference in an unofficial capacity and at their own expense. The government funds could not be used for such a purpose. This difficulty has held up announcement of the participation of the American mission, and lately there have been indications that the treasury department would be compelled to invite some of the American financiers now in Europe on private business to attend the meeting.

SPA, July 17.—The allied representatives here have telegraphed the secretary-general of the league of nations in London asking for a postponement of the financial conference at Brussels until after September 15. The dispatch said it was considered that the conference could not combine the elements necessary to achieve the results for which it was summoned.

The international financial congress was to be held in Brussels July 23. It was to discuss economic conditions of the various nations.

Crowds came from neighboring towns. There were a number of contests. Prizes were given for the prettiest boy and girl, the ugliest man, the prettiest married woman and to the oldest man and woman on the grounds. Mrs. Sparks, mother of Matt Sparks, who resides near town, was the oldest woman on the ground, and she was 96 years old and is perhaps the oldest woman in the county. L. P. Jones, who is past 80, was the oldest man on the ground.

Speeches were made by Capt. Gordon Browning, candidate for the Democratic nomination, against Congressman T. W. Sims and Hon. C. W. Watson, of the bureau of farm development, of Memphis. Capt. Browning formerly lived here, and attended the public schools here. He was formerly a member of the Trezevant branch. His speech made a fine impression here and his friends are claiming that he will carry the district almost solid in the primary election.

One of the leading features of the day was the double-header ball game between the McKelzie and Milan teams. The results of the games were 1 to 2 in favor of the McKelzie team. The McKelzie team of the day's celebration will be donated to the City Cemetery association.

WASHINGTON, July 17.—The five German surface warships allocated to the United States sailed from Bremer July 13 and are due at New York August 3, it was announced yesterday at the navy department.

The 2,000-ton dreadnought cruiser, land is proceeding under her own power, but the armored cruiser Frankfurt and three destroyers are under tow by the transport Hancock and three American mine sweepers.

The Frankfurt's machinery has been prepartly damaged, while the destroyers were among the German vessels submerged at Scapa Flow.

It is planned to open the vessels for inspection, it was said, shortly after their arrival at New York.

Naval officials said that while the vessels would be carefully examined by experts it was doubtful that much important information would be cleared. Under a clause of the peace treaty the German craft must be destroyed within a year after their arrival in this country.
